## **BIOSTAT SYMPOSIUM 2011**

# 18th MEETING OF RESEARCHERS IN BIOMETRICS / STATISTICS

# **BIOSTAT Topics:**

- Data Visualization
- Space Reduction Methods
- Prediction and Classification
- Computationally Intensive Methods
- Time and Space Modeling, etc.

# 16th SCHOOL OF BIOMETRICS

Title: Analysis of Areal Health Data

Invited Lecturer: Linda J. Young, University of Florida, USA

Chair: Anamarija Jazbec

① Thursday, June 30, 09:00 - 09:45 and 11:30 - 13:30, Orlando Hall.

**Abstract:** Health data are often not available at the individual level out of concern for individual's privacy. Instead, data may be reported for areal units, such as parishes, counties, census tracts, etc. In this short course, the challenges associated with working with areal health data when the goal is to draw inference about individual health will be considered. Because health and exposure data are usually observed on different spatial units, the spatial exposure and health outcomes data must be linked on a common spatial scale for analysis. Approaches to assessing the association between health outcomes and environmental exposures when the linkage is for areal units is the primary focus of the course.

## OTHER USEFUL INFORMATION

# **Currency, Money and Banks**

Croatia's unit of currency is the Kuna (Kn). Banks (banka) are generally open Monday to Friday 7.30 AM-7 PM (often with a break for lunch), and Saturday 7.30-11.30 AM. Money can also be changed in post offices, travel agencies and exchange offices (mjenjačnica), which have more flexible hours. Credit cards are generally accepted in hotels and restaurants, but be sure to ask before you order. You can also use ATMs (bankomat) to get cash. Many banks have ATMs in front of their building. Banks: Cavtat (OTP, PBZ), Airport (OTP)

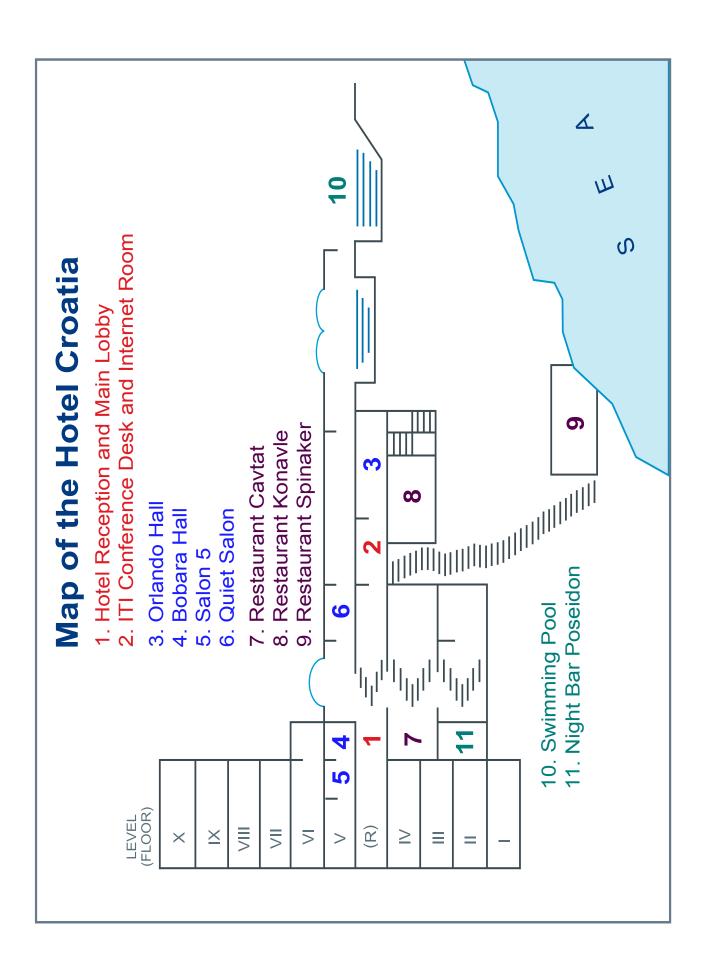

ATM machines: Hotel Croatia (PBZ), Cavtat (OTP, PBZ, ZB), Airport (PBZ, ZB)

## Restaurants - good to know

The working hours of most restaurants are from 11AM till midnight. A restaurant's menu is shown at the entrance, as well as the signs of the credit cards accepted (most major credit cards are generally accepted). The price includes taxes, but the service charge is almost never included and is not mandatory. It is customary; however, that the guest who is satisfied with the service leaves a tip for the waiter, 10% of the total amount is usually a fair tip.

## **Drinking water**

Drinking water in Dubrovnik is of very good quality, constantly controlled, and comes mostly from the Ombla River, 5 km from Dubrovnik.
